

# KM Creations - helping you create your dream space

Renovating and extending properties has become a popular choice with many home owners, particularly with all the influential TV programmes such as Grand Designs. Many of us would love to make changes to our homes but the problem is knowing where to start.

This is where the expert advice of Kirsty Morris at Km Creations can help you create your dream space and with her knowledge and creative flair can turn your idea into reality.

Kirsty launched Km Creations in 2009 after working for two major architectural firms in London following her degree course at Bournemouth where she obtained a BA (Hons) degree in Interior/Architecture Design.

Her main focus is to provide architectural drawings and services for planning applications. Kirsty enjoys working with her clients to help create their ideal living space and making it a reality. Some of her clients have very strong ideas and views on what they want to achieve but other times she can bring new ideas and concepts to her clients, working together to reach the ideal plan.

Kirsty has worked on small projects as well as planning estates with over 500 units and has

had vast experience in all aspects of planning.

Kirsty deals with the whole planning process to take the stress away from her clients - this includes free site visits, free quotation, submitting the planning application and dealing with the council.

Having grown up in Edenbridge herself, she is highly knowledgeable of the area and has helped many people here already make changes to their properties. One of her most high profile local projects was turning the old toilet block on the bridge into the office you see there today.

Kirsty also undertakes work for interior designers, corporate companies and developers but her greatest passion is to help individuals make the most of their homes.

So, whether you require tailored advice on your proposed extension/loft conversion or a new development, Km Creations can satisfy your individual needs in a professional and approachable manner.

Contact Kirsty on **01732 862 911** or email [kirsty@kmcreations.co.uk](mailto:kirsty@kmcreations.co.uk). You can also view her work and testimonials on her new website at [www.kmcreations.co.uk](http://www.kmcreations.co.uk) which also has a link to a project she worked on that was featured on the TV series 'Homes under the Hammer'.
